RICHMONT

A win-win situation: currently I'm rounding up my French studies, but for work I need a more specific knowledge of the language I studied. With the coaching of l'école de français I learned key words and sentences I can use to speak more efficiently to the French speaking clients. I'd recommend their courses to everyone.

Elvis - Customer service representative French - Hellofresh

I can recommend to everyone to take a course at l'école de français.

The classes are very **effective and professional**.

After only a year I can talk about a lot of different subjects, watch French movies and read French books and magazines.
